20 Wairoa

30 Sturt Valley

24 Mylor
29 Warrawong

26 & 28 Macclesfield

25 & 27 Strathalbyn Town

Road Book Instructions

Crews are advised that the road book was created and checked using only GPS Tripmeters.

GPS accuracy can vary slightly from day to day, and crews will experience some minor variations in distances – especially noticeable on the longer road sections. It is recommended you also use the part distances to reset at each instruction to reduce any variances.

The road book instructions are intended to guide you in a navigation sense and DO NOT attempt to help you choose the speed at which to travel.

The Instructions cannot, and must not, be used as any form of 'pace notes'.

Crews who do not undertake a pre-event reconnaissance are especially warned they choose their speed based on their visual reading of the road ahead.

Warnings of upcoming bends are only included in a few instances where it was felt the visual approach was particularly deceptive.

The roads used in this event are very demanding and contain numerous very tight and narrow bends – some with steep drops, rocks, or Armco railing.

Accordingly, we advise crews that they are totally responsible for the manner and speed in which they traverse the course, and ultimately their own safety.

Crews should be taking their own experience and abilities into account, and so traverse the course in the manner and speed at which they are comfortable.

Emergency Phone Number:

8410 8100

Road Book Rules

1. This road book was compiled:
 - a. At below legal speed limits
 - b. Whilst driving on the left hand side of the road
 - c. In dry weather conditions
2. Follow the main road that you are on unless otherwise instructed.
3. Every bend and hump in the road is not included in these instructions.
4. Instructions are given where it is considered that the characteristics of the road changes, or there is a perceived danger to crews.
5. 60m = 60 metres
6. GPS co-ordinates are given in 'degree, minute-decimal' format, as per GPS Datum WGS 84 (GDA 94).
S 35° 07.854
E 138° 29.662
7. Cautions
 - ! Care** – some care needs to be exercised
 - !! Caution** – a reduction in speed is required
 - !!! Danger** – a severe reduction of speed is required

Speeding Penalties

Crews are reminded that under the **National Rally Standing Regulations – Special Stage Rally**, and **National Rally Standing Regulations – Events General**, penalties will apply for speeding during the Event.

These can be found in the Event’s Supplementary Regulations.

Detection of speed limits may be through notification from the Police, Event Radar or RallySafe Reports.

The number of offences means the number detected during the event, irrespective of speed.

Odometer Check

The official odometer check in the City is done by travelling east along Greenhill Rd between two marked power poles and is **5.64km** long.

The start pole is situated 100m west of Goodwood Rd. It has a sign stating “ODO Start” in white letters on a red background.

The end pole is situated east of Burke St (directly opposite Laurel Ave). It is marked “ODO Finish” in white letters on a red background.

Emergency Procedures

In the event of an accident within a stage, the first line of help is the following competitor.

It is also important that the following competitors are warned of any impending hazard as a result of the accident or incident, such as people or animals on the road, vehicles or debris blocking the course, or fluid spills on the road.

Procedure to be Followed by Crews Involved in an Accident

In the event of an accident of a special stage, the first priority is to warn the following crews of any hazard. If able, the driver and co-driver should leave the vehicle, with the warning triangles from the vehicle and proceed back up the road to place these in a conspicuous position at least 50m and 100m before the car to warn following cars. Should the vehicle be completely off the road, warning triangles should not be placed on the road.

In the event of an accident where no injuries are sustained that require immediate medical attention, the 'OK' sign must be clearly displayed to following cars to allow them to proceed quickly through the stage and without slowing unnecessarily. Both the warning triangles and 'OK' sign must be left on display for the whole length of the period that the car is stopped on the course, regardless of whether the crew remain with the car.

It is important that the 'OK' sign is shown to all other competitors, even if the car has stopped for mechanical reasons.

In the event of any crew member being injured and requiring medical attention, other than from minor cuts and bruises, competitors should display the 'SOS' sign.

Following vehicles must stop to render assistance to any incident.

The immediately following vehicle is to stop and render assistance where they can. The second and third following vehicles to arrive must be sent to the next SOS point or the end of the stage to call for medical assistance.

As this will result in the stage being stopped, competitors are asked to use their judgement on whether medical attention is required immediately, or whether a delay until after the last car will be satisfactory. Competitors are able to talk with medical personnel at Rally Control via mobile telephone on the Event's dedicated emergency number.

In the event of the crew being injured or trapped in the vehicle and no 'OK' or 'SOS' sign being displayed, all following cars must stop at the accident to render assistance.

Procedure to be Followed by Following Vehicles

In the event of a following vehicle sighting the crew members or warning triangles on the road, crews should slow and be ready to stop as there may be an obstruction on the road.

If a member of the crew is displaying the 'OK' sign, crews may continue on the stage at speed, but must be overtly cautious to any obstructions or debris, and advise the control officials at the Stop Point the location of the damaged vehicle and the fact that it is displaying an 'OK' sign. The location is always described as the distance into the stage from the Stage Start.

If a member of the crew is displaying the 'SOS' sign, following vehicles must stop and render assistance. The procedure is that the first vehicle stops at the accident; the second and third vehicles are to proceed immediately to the end of the stage to advise Control officials that medical attention is required.

The first crew should then assist in placing warning triangles to ensure the following competitors are alerted to the accident scene and following crews should carry on to complete the stage in the normal manner. Competitors should position themselves in a safe position to wave following cars through.

In the event that further crews are necessary to assist at the scene of the accident, then the following crews should also be waved down to stop.

Once there are sufficient competitors providing assistance, the 'OK' sign should be displayed to further crews.

In the event of no 'OK' or 'SOS' sign being displayed at the scene of an incident or accident, following crews must stop and investigate and then carry on with the above procedure.

In most locations on the course, mobile telephones will operate effectively. Competitors may carry and use mobile telephones; however they should be turned off while traversing any stage to avoid distraction.

Competitors should try the mobile telephone en-route to the next SOS point or stage finish. Contact the Rally Control Emergency telephone number on **(08) 8410 1100**.

Competitors who stop to render assistance at an accident may be given a derived time in accordance with the supplementary regulations.

Recognised Hand Signals

In any case where incident or timing doesn't allow for the display of 'OK' or 'SOS' signs, the following gestures should be used:

					SS 1 - Beaumont								

1	Day & Section This indicates the 'Day' or 'Leg' of the event, and the relevant 'Section'. A 'Section' is the collection of 'Special Stages' or 'Liaisons' between Regroups or Parc Ferme.	8	Average Speed This indicates the average speed required to traverse the whole 'Section' in the 'Time Allowed'.
2	Your Start Time Use this space to note the time you are starting the stage. I.e, 10:27:00 (hh:mm:ss).	9	Control Name (Departing) This is usually the name of the road leading into the Time Control (at a Stage Start).
3	Time Allowed This indicates how long it is expected to traverse the Special Stage and subsequent liaison.	10	Control Name (Arriving) This is usually the name of the road leading into the Time Control at the following 'Special Stage' or location.
4	Due Time This is 'Your Start Time' plus 'Time Allowed'. In the case above, 10:35:00.	11	Special Stage Name This is the name of the 'Special Stage'. This may be followed by a numeral which indicates the running of that Stage. I.e, 'Beaumont 2' would indicate the 2 nd running of the 'Beaumont' stage.
5	Total Distance This is the total distance of the 'Section'. I.e, the length of the 'Special Stage', plus the following 'Liaison'.	12	Special Stage Number This is the sequential number of the 'Special Stage'.
6	SS Distance This is the length of the 'Special Stage'.	13	Time Control (Arriving) This 'Time Control' at the <i>end</i> of the 'Section'. Its number is matched to a 'Section' on the Event's Itinerary.
7	Time Allowed This reflects the 'Time Allowed' at '3'.	14	Time Control (Departing) This 'Time Control' at the <i>start</i> of the 'Section'. Its number is matched to a 'Section' on the Event's Itinerary.

F**G****H****I****J****K**

A	Total Distance This is the distance travelled from the start of the current 'Section'.	I	Absence of Separator Line This indicates that the next instruction is within 200m of the current Tulip. Instructions within 100m of each other are generally included within the same Tulip.
B	Part Distance This is the distance travelled from the previous instruction.	J	Signpost This indicates the location of a signpost relevant to the road travelled.
C	Direction This is called a 'Tulip'. It indicates the shape of the road, and features of the instruction.	K	Signpost Instruction The label indicated by the signpost at 'J'.
D	Information This is a written instruction representing the Tulip's information.	L	Tulip Entry & Exit Instructions are always written relative to the direction being travelled. The 'ball' indicates the starting position of the instruction relative to the road. The arrow indicates the direction of travel once the instruction has been traversed.
E	Distance To Go This is the distance from the next 'Time Control'.	M	Nominal Instruction This is background information supplied in aid of Tulips. It often does not specify a distance.
F	Distance To Go This number indicates the distance to be travelled between the current instruction and the 'Flying Finish'.	N	Un-Shaded Instruction An un-shaded instruction indicated that 'Liaison' or 'Transport Section' is being traversed.
G	GPS Co-Ordinates The precise GPS location of the instruction or Tulip.	O	Shaded Instruction Shading indicates that the course being traversed is Competitive (within a 'Special Stage').
H	Separator Line Used to separate instructions which are more than 200m apart.	P	Instruction Number A 'Tulip Number' indicates the numerical order of instructions within a 'Section'.

Recommended Reconnaissance Order

The reconnaissance order below has been developed to allow strategic and streamlined reconnaissance of all stages within an efficient timeline over two (2) days.

Crews are reminded that unlimited reconnaissance is permitted, with limitations outlined in the event's *Supplementary Regulations*.

Day One Recce Order

From Adelaide, make your way to Fullarton Road, and follow this to Mitcham. Turn right at the roundabout onto Blythewood Road. Turn left at the T-Junction onto Belair Road. Continue to the Windy Point stage.

SS22 - Windy Point

Continue through Belair and turn left on Laffers Road. Turn right at the T-Junction onto Upper Sturt Road. At the next major intersection, give way, and turn left towards Crafers. Turn right onto Sturt Valley Road and continue to the start of Sturt Valley.

SS30 - Sturt Valley

Continue to the T-Junction and turn right onto Longwood Road. Turn left onto Forbes Road and continue to the start of Mylor.

SS24 - Mylor

At the end of this stage, turn around, start the Warrawong stage (start is parallel to the Mylor Flying Finish).

SS29 - Warrawong

Continue to the Cross Road, and turn right onto Emery Road. Follow this onto Edgeware Road. Turn right onto Kingsland Road. At the roundabout in Aldgate, turn left onto Mount Barker Road, and continue to the stage start of Wairoa.

SS20 - Wairoa

Continue through Stirling to the last roundabout, and join the freeway down-track to follow the South Eastern Freeway into Adelaide. Take the Eagle on the Hill exit on the left, and continue to the stage start of Leawood Gardens.

SS21 – Leawood Gardens

Continue following the road left to merge onto the South Eastern Freeway. At the bottom of the Freeway, turn right onto Portrush Road. Turn right onto Giles Road. Turn left onto Sunnyside Road. Turn right onto Sherwood Terrace. Continue to the T-Junction, and turn right onto Hayward Drive. The stage start of Beaumont is on your left shortly.

SS1 - Beaumont

Continue on Mount Osmond Road. Turn left after the Golf Course (this is still Mount Osmond Road). Continue onto the Freeway up-track, and merge onto the Freeway. Take the 'Eagle on the Hill' exit and continue to the stage start of Eagle on the Hill.

SS2 - Eagle on the Hill

At the Stop Point, turn around. This is Leawood Gardens again. Take this opportunity to check your notes.

SS21 - Leawood Gardens

Continue onto the Freeway down-track towards Adelaide. At the bottom of the South Eastern Freeway, turn right onto Portrush Road. Continue on this road, then turn right onto Greenhill Road. Continue to the stage start of Mt. Lofty.

SS23 - Mt. Lofty

NOTE: Once you turn right onto Mount Lofty Summit Road, this road is common to both the Mt. Lofty Stage and the Summit Road stage. The stage start for Summit Road is on your left just after the Greenhill Road intersection.

SS11 - Summit Road

At the stop point, ***turn around***, and turn right onto Greenhill Road at the T-Junction. Continue through Summertown and into Uraidla. Turn left onto Basket Range Road. At the next T-Junction, turn right onto Lobethal Road. Turn left onto Hunters Road and continue to the stage start of Knotts Hill.

SS3 & SS9 - Knotts Hill

At the T-Junction, turn right onto Marble Hill Road. Continue to the stage start of Cherryville Plus.

SS4 & SS7 - Cherryville Plus

Continue on Gorge Road and turn right onto Cuddlee Creek Road. Turn right onto Fox Creek Road and continue to the stage start of Stafford Hillclimb.

SS8 - Stafford Hillclimb

Continue from the stop point, through Lenswood into Adelaide.

Day Two Recce Order

From Adelaide, take Gorge Road through Castambul, continue past Torrens Hill Road, and turn left onto Tippet Road.

SS17 - Millbrook

Continue through Inglewood towards Houghton. Turn left onto Lower North East Road, and continue to the stage start of Vista.

SS5 & SS18 – Vista 1 & 2

After the Stop Point, turn right onto Perseverance Road. At the T-Junction, turn right onto North East Road. Turn left onto Range Road North, and continue to the stage start of Hermitage.

SS12 - Hermitage

From the Stop Point, turn right onto Hannaford Hump Road. Turn right onto Lower Hermitage Road and continue to the T-Junction. Turn left onto Range Road North, then turn left onto North East Road. Continue to the stage start of Chain of Ponds at the Fiddlers Hill Road intersection.

SS13 - Chain of Ponds

From the Stop Point, continue to turn right onto Gorge Road. Turn left onto Corkscrew Road and continue to the stage start of Corkscrew Plus.

SS14 - Corkscrew Plus

From the Stop Point, continue on Montacute Road towards the CBD. Turn left onto St. Bernards Road. Turn left onto Magill Road. Turn left onto (New) Norton Summit Road and continue to the stage start of Norton Summit.

SS15 & SS19 - Norton Summit 1 & 2

From the Stop Point, continue into Norton Summit, and turn right onto Old Norton Summit Road. Continue towards Adelaide CBD. Turn around at Horsnell Gully Road, and meet the stage start of Old Norton Summit.

SS6 & SS10 - Old Norton Summit 1 & 2

From the Stop Point, continue around to the right on Lobethal Road. Turn left onto Marble Hill Road. Turn right onto Pound Road, and continue to the stage start of Knotts Range.

SS16 - Knotts Range

From the Stop Point, continue to the next junction, and turn right onto Greenhill Road. Turn left onto Rangeview Drive. Turn left onto Carey Gully Road. Re-join the South Eastern Freeway up-track on the left. Take the Mt. Barker exit, and turn right into Mt. Barker. Continue towards Wistow and turn right here towards Strathalbyn. At the roundabout, continue straight ahead onto North Parade. Turn right across the bridge (North Parade), and then turn left onto Commercial Road. Turn left onto Albyn Street, and then turn right onto Catherine Street. Continue to the stage start of the Strathalbyn Town Stage.

SS25 & SS27 - Strathalbyn Town Stage

From the Stop Point, continue on this road to the roundabout. Continue straight through the roundabout onto Adelaide Road. Turn left onto Strathalbyn Road towards Macclesfield. Continue to the stage start of Doctors Creek.

SS26 & SS28 - Macclesfield

From the stop point, continue through Macclesfield, Flaxley, Echunga, Mylor, and Aldgate into Stirling. Continue to the South Eastern Freeway, keeping left towards Adelaide. Continue into Adelaide.

NOTE FOR COMPETITIVE CATEGORIES:

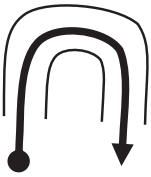

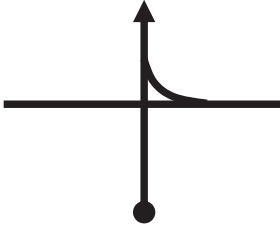

***A minimum elapsed time applies to this stage,
as per the Schedule of Target Times.***

Also note the following excerpt from the RSR-NR:

"Any breach of this time on this Special Stage will result in a 30 second penalty being applied. At no time can a vehicle slow to below 30kph or stop, unless being passed by another vehicle, in order to record a time greater than the minimum time. If a vehicle is found to have breached this requirement on this Special Stage this will result in a 30 second penalty being applied."
